

<i>List of contributors</i>	page vii		
<i>Preface</i>	xi		
1 Introduction	1		
<i>Iain J. Gordon, Julia Martin-Ortega, and Robert C. Ferrier</i>			
2 What defines ecosystem services-based approaches?	3		
<i>Julia Martin-Ortega, Dídac Jorda-Capdevila, Klaus Glenk, and Kirsty L. Holstead</i>			
Part I Addressing global challenges			
3 Assessing climate change risks and prioritising adaptation options using a water ecosystem services-based approach	17		
<i>Samantha J. Capon and Stuart E. Bunn</i>			
4 Operationalizing an ecosystem services-based approach for managing river biodiversity	26		
<i>Catherine M. Febria, Benjamin J. Koch, and Margaret A. Palmer</i>			
5 Water for agriculture and energy: the African quest under the lenses of an ecosystem services-based approach	35		
<i>Maher Salman and Alba Martinez</i>			
Part II Applying frameworks for water management and biodiversity conservation under an ecosystem services-based approach			
6 Using ecosystem services-based approaches in Integrated Water Resources Management: perspectives from the developing world	49		
<i>Madiodio Niassé and Jan Cherlet</i>			
7 Implementation of the European Water Framework Directive: what does taking an ecosystem services-based approach add?	57		
<i>Kirsty L. Blackstock, Julia Martin-Ortega, and Chris J. Spray</i>			
8 How useful to biodiversity conservation are ecosystem services-based approaches?			65
<i>Craig Leisher</i>			
Part III Assessing water ecosystem services			
9 The first United Kingdom's National Ecosystem Assessment and beyond			73
<i>Marije Schaafsma, Silvia Ferrini, Amii R. Harwood, and Ian J. Bateman</i>			
10 Using an ecosystem services-based approach to measure the benefits of reducing diversions of freshwater: a case study in the Murray-Darling basin, Australia			82
<i>Neville D. Crossman, Rosalind H. Bark, Matthew J. Colloff, Darla Hatton MacDonald, and Carmel A. Pollino</i>			
11 An ecosystem services-based approach to integrated regional catchment management: the South East Queensland experience			90
<i>Simone Maynard, David James, Stuart Hoverman, Andrew Davidson, and Shannon Mooney</i>			
12 Policy support systems for the development of benefit-sharing mechanisms for water-related ecosystem services			99
<i>Mark Mulligan, Silvia Benítez-Ponce, Juan S. Lozano-V, and Jorge Leon Sarmiento</i>			
13 Assessing biophysical and economic dimensions of societal value: an example for water ecosystem services in Madagascar			110
<i>Ferdinando Villa, Rosimeiry Portela, Laura Onofri, Paulo A. L. D. Nunes, and Glenn-Marie Lange</i>			
14 Rapid land use change impacts on coastal ecosystem services: a South Korean case study			119
<i>Hojeong Kang, Heejun Chang, and Min Gon Chung</i>			

Part IV Broadening the perspective

- 15 Ecosystem services-based approaches to water management: what opportunities and challenges for business? 129
Joël Houdet, Andrew Johnstone, and Charles Germaneau
- 16 Key factors for successful application of ecosystem services-based approaches to water resources management: the role of stakeholder participation 138
Jos Brils, Al Appleton, Nicolaas van Everdingen, and Dylan Bright
- 17 Cultural ecosystem services, water, and aquatic environments 148
Andrew Church, Rob Fish, Neil Ravenscroft, and Lee Stapleton
- 18 The psychological dimension of water ecosystem services 156
Victor Corral-Verdugo, Martha Frías-Armenta, César Tapia-Fonllem, and Blanca Fraijo-Sing
- 19 The interface between human rights and ecosystem services 163
Stephen J. Turner
- 20 Water ecosystem services: moving forward 170
Julia Martin-Ortega, Robert C. Ferrier, and Iain J. Gordon
- Index* 174
- Colour plate section between pages 84 and 85*
