

# Table of contents

|   |           |
|---|-----------|
| Introduction.....   | 5         |
| <b>1    Numeral Systems.....</b>                                      | <b>7</b>  |
| 1.1    Binary numeral system.....                                     | 8         |
| 1.2    Octal and hexadecimal numeral system .....                     | 10        |
| 1.3    Transfers between numeral systems.....                         | 12        |
| <b>2    Algorithms .....</b>  | <b>15</b> |
| 2.1    Flowcharts .....   | 17        |
| <b>3    Computer Hardware .....</b>                                   | <b>35</b> |
| 3.1    Personal computers.....  | 35        |
| 3.2    Short overview of the development of microprocessors.....      | 36        |
| 3.2.1    Firsts.....  | 37        |
| 3.2.2    8-bit designs .....  | 38        |
| 3.2.3    16-bit designs.....  | 39        |
| 3.2.4    16-bit designs .....   | 40        |
| 3.2.5    64-bit designs .....   | 43        |
| 3.2.6    Multi-core designs .....                                     | 43        |
| 3.3    Personal computer architecture .....                           | 43        |
| 3.4    Basic concepts of processors - architecture RISC and CISC..... | 47        |
| 3.4.1    Computer buses.....  | 48        |
| 3.5    PC interface ports .....                                       | 49        |
| 3.6    Computer memory.....   | 51        |
| 3.7    Input-output devices .....                                     | 55        |
| 3.7.1    Input devices.....   | 55        |
| 3.7.2    Output devices .....   | 58        |
| <b>4    Computer Software .....</b>                                   | <b>61</b> |
| 4.1    System software .....  | 62        |
| 4.1.1    System Control Programs.....                                 | 62        |
| 4.2    Application software .....                                     | 66        |
| 4.2.1    Programming languages .....                                  | 70        |
| <b>5    Computer Networks.....</b>                                    | <b>73</b> |
| 5.1    Data transmission.....   | 74        |
| 5.1.1    Transmission media .....                                     | 74        |

|           |   |            |
|-----------|---|------------|
| 5.2       | Types of computer networks.....                                 | 78         |
| 5.3       | Computer Network Topologies .....                               | 80         |
| 5.4       | OSI Model.....  | 84         |
| 5.5       | Internet Model .....  | 85         |
| 5.6       | Network Addressing.....   | 85         |
| <b>6</b>  | <b><i>Computer Viruses.</i></b> .....                           | <b>87</b>  |
| 6.1       | Types of Viruses .....  | 88         |
| 6.2       | Virus authors and impact on IT systems.....                     | 91         |
| 6.3       | Computer protection .....                                       | 93         |
| <b>7</b>  | <b><i>Text Editors and Microsoft Word 2013</i></b> .....        | <b>95</b>  |
| 7.1       | Microsoft Word 2013 .....                                       | 96         |
| 7.2       | Creating of the new document .....                              | 99         |
| 7.3       | Word 2013 keyboard shortcuts .....                              | 107        |
| <b>8</b>  | <b><i>Presentations and Microsoft PowerPoint 2013</i></b> ..... | <b>109</b> |
| 8.1       | Structure of a Presentation.....                                | 109        |
| 8.2       | Microsoft PowerPoint 2013 .....                                 | 110        |
| 8.3       | Creating of the new presentation .....                          | 114        |
| 8.4       | PowerPoint 2013 keyboard shortcuts .....                        | 118        |
| <b>9</b>  | <b><i>Spreadsheets and Microsoft Excel 2013</i></b> .....       | <b>119</b> |
| 9.1       | Microsoft Excel 2013.....                                       | 119        |
| 9.2       | Cell formatting .....   | 122        |
| 9.3       | Creating formulas to calculate values.....                      | 123        |
| 9.4       | Using functions in Excel.....                                   | 125        |
| 9.5       | Reordering, filtering and summarizing data .....                | 127        |
| 9.6       | Creating charts .....   | 130        |
| 9.7       | Saving your file.....   | 133        |
| <b>10</b> | <b><i>Computers and Law</i></b> .....                           | <b>135</b> |
| 10.1      | Protection of computer programs .....                           | 136        |
| 10.2      | Software versions.....  | 137        |
| <b>11</b> | <b><i>Computers and Health</i></b> .....                        | <b>139</b> |
|           | References .....  | 143        |
