Preface	5
1 Health Safety Aspects of Foodstuffs Intended for Particular Nutritional Uses (M.Fikselová)	6
1.1 Characteristics and basic legislation.....	6
1.1.1 Infant formulae and follow-on formulae	7
1.1.2 Dietary foods for special medical purposes.....	10
1.1.2.1 Foods for celiac disease.....	11
1.1.3 Foods intended for use in energy-restricted diets for weight.....	13
1.1.4 Foods for diabetics.....	15
1.1.5 Foods intended for sportsmen.....	18
1.1.6 Health safety aspects of energy drinks.....	20
1.1.6.1 Caffeine.....	21
1.1.6.2 Taurine.....	23
1.1.6.3 Inositol.....	25
1.1.6.4 Carnitine.....	25
1.1.6.5 Glucuronolactone.....	26
1.1.6.6 Food additives in energy drinks.....	27
1.1.6.7 Plant extracts in energy drinks.....	28
1.1.6.8 Energy drinks in human nutrition.....	29
2 Nutrition and health claims made on foods (M. Fikselová)	31
2.1 Basic definitions and characteristics.....	32
2.2 General conditions for approval/use of claims.....	34
2.3 Nutrition claims	35
3 Health safety aspects of food supplements (M. Fikselová)	40
3.1 Approval of food supplements.....	41
3.2 Basic legislation.....	42
3.3 The safety and effects of supplements.....	43
4 Health safety aspects of food additives (S. Marcinčák, M. Fikselová)	45
4.1 Food additives - characterization, testing, approval.....	45
4.1.1 Use of food additives.....	47
4.1.2 Basic legislation.....	48
4.1.3 Testing of food additives.....	50
4.1.4 Approval of food additives.....	50
4.1.5 Amounts of food additives used in food.....	53
4.1.6 Labelling of food additives.....	54
4.2 Colours.....	55
4.3 Sweeteners.....	58
4.3.1 Natural sweeteners.....	59
4.3.2 Alternative natural sweeteners.....	60
4.3.3 Artificial (synthetic) sweeteners.....	60
4.3.3.1 Polyols.....	62
4.3.4 Safety of sweeteners.....	63
4.4 Other selected food additives.....	63
4.4.1 Antioxidants.....	63
4.4.1.1 Synthetic antioxidants.....	64
4.4.1.2 Natural antioxidants.....	64
4.4.2 Flavourings	65
4.4.3 Preservatives.....	66

4.4.4 Thickeners.....	67
4.4.5 Modified starches.....	68
4.4.6 Emulsifiers.....	69
4.4.7 Flavour enhancers.....	69
4.4.8 Stabilizers.....	69
4.4.9 Acids.....	70
5 Health risks of novel food (M. Mellen).....	71
5.1 New components of novel foods.....	72
5.2 Phytosterols.....	73
5.3 Unusual plant products.....	74
5.4 Unusual or modified oils.....	76
5.5 Novel sugars.....	78
5.6 Antioxidants from non-traditional sources.....	79
6 Health Safety Aspects of Alcohol (M. Mellen).....	82
6.1 The direct effect of alcohol on the human body.....	83
6.2 The metabolism of ethanol.....	83
6.3 Oxidative stress.....	84
6.4 Liver damage.....	84
6.5 Ethanol and cardiovascular system.....	85
6.6 Ethanol and tumors.....	85
6.7 Alcohol and other damages.....	85
6.8 Alcohol and nutritional aspects.....	86
6.9 Methanol and its risks.....	86
7 New Food Product Development (M. Mellen).....	87
7.1 Product development.....	87
7.2 Nutritional improvement of plant foods- examples and possibilities.....	94
7.3 Nutritional improvement of animal foods- examples and possibilities.....	95
7.4 Effects of selected processing methods on the development of safe food.....	96
8 Sustainability in Food Chain and Food Safety (M. Mellen).....	98
8.1 Food losses and sustainability in food chain.....	99
8.2 Types of food losses/waste.....	101
8.3 Causes and prevention of food losses and waste.....	104
8.4 Role of food packaging and labelling in food waste.....	107
References.....	109
