

Content

Preface	7
SECTION <i>Biotechnologies</i>	8
The effect of patulin on HT - 29 celi line Rudolf DUPÁK	9
<i>In silico</i> characterization of the promoter sequence of the gene encoding β-1,3-glucanase Monika FRÁTRIKOVÁ	10
Study of the influence of naturally occurring preparations DAG-1 and DAG-2 on oxidative processes of cotton in a saline environment Sanjar NAVRUZOV, Ali AKHUNOV	11
Influence of inoculant on content of microelements in selected types of legumes Erika ZETOCHOVÁ, Alena VOLLMANNOVÁ, Katarína ONDREIČKOVÁ	12
SECTION <i>Animal Production</i>	13
Influences of initial body weight and biofilter type on inorganic nitrogen removal rates in recirculating aquaculture systems Tareq IRHAYYIM	14
Increasing the accuracy of the estimation of breeding values of show jumping horse Katarína DOČKALOVÁ, Juraj CANDRÁK	15
Botanical origin of bee pollen loads in Slovakian apiaries Ladislav KOHÚT	16
Feeding grape pomace to horses: effect on digestibility of nutrients Renata KOLLÁTHOVÁ, Branislav GÁLIK, Marko HALO	17
Different ways to compute genomic inbreeding Kristína LEHOCKÁ, Radovan KASARDA, Barbora OLŠANSKÁ, Anna TRAKOVICKÁ, Ondrej KADLEČÍK, Nina MORAVČÍKOVÁ	18
Effect of <i>Lippia citriodora</i> extract supplementation on quality of rabbit semen <i>in vivo</i> and <i>in vitro</i> Martin MASSÁNYI, Francesco VIZZARI, Lubomír ONDRUŠKA, Peter MASSÁNYI	19
Effect of calving season and temperature at calving on the gestation length Šimon MIKLÁŠ, Vladimír TANČIN, Lucia MAČUHOVÁ, Michal UHRINČAŤ	20
Genome-wide signals of artificial selection through FST statistic in Slovak Spotted Cattle Barbora OLŠANSKÁ, Kristína LEHOCKÁ, Radovan KASARDA, Ondrej KADLEČÍK, Anna TRAKOVICKÁ, Nina MORAVČÍKOVÁ	21
Effective population size of Slovak Spotted cattle based on high-density SNP data Ján PRIŠŤÁK, Radovan KASARDA, Kristína LEHOCKÁ, Barbora OLŠANSKÁ, Ondrej KADLEČÍK, Anna TRAKOVICKÁ, Nina MORAVČÍKOVÁ	22
Mastitis pathogens in sheep milk and their antibiotics resistance Kristína TVAROŽKOVÁ, Vladimír TANČIN, Ivan HOLKO, Michal UHRINČAŤ, Lucia MAČUHOVÁ	23
The nutritive value of grape pomace silages with urea addition Patrícia VAŠEKOVÁ, Miroslav JURÁČEK	24
SECTION <i>Applied and molecular biology</i>	25
Antioxidant activity of marigold (<i>Calendula officinalis</i>) extract on bovine spermatozoa Filip BENKO, Valentína PALKOVIČOVÁ, Michal ĎURAČKA, Július ÁRVAY, Norbert LUKÁČ, Eva TVRDÁ	26
The ability of streptomycetes to promote plant growth of arugula (<i>Eruca sativa</i>) and to suppress the activity of phytopathogenic fungi Renata CINKOCKI, Nikola HRICÁKOVÁ	27

Antiradical activity of bioflavonoids Feruza Sh. TUXTAYEVA, Ulugbek. G. GAYIBOV, Zulayho A. PVAIILATOVA	28
Determination of evaluation of cyclodextrins efficiency as solubilizers for cynaroside Sabina GAYIBOVA	29
Isolation and characterization of <i>Bacillus</i> strains and their effect on improving growth of maize (<i>Zea mays</i> L.) Nikola HRICÁKOVÁ, Renata CINKOCKI	30
Actions modified sulphated cellulose for thrombin time Nozim KHOSHIMOV, Madina MUSAEVA, Guli RAIMOVA, Mukhiddinov BAKHTIYOR, Tulisova SITORABONU	31
Anticoagulant activity of sulphated polysaccharides Nozim KHOSHIMOV, Madina MUSAEVA, Guli RAIMOVA, Mukhiddinov BAKHTIYOR, Feruza TUXTAYEVA	32
Antinuclear autoantibodies: our friends or enemies? Lukasz M. KOLODZIEJCZYK, Marcin KISIELEWSKI, Agnieszka GREN	33
Calgonit for industria) synthesis Romana KÔSZAGOVÁ	34
Morphological characteristics as a key attribute for a successful determination of selected <i>Cotoneaster</i> species- preliminary results Samuel KŠIŇAN	35
Relaxant effect of the F-37, an isoquinoline alkaloid on isolated rat aortic smooth muscle Abdusalim A. ZARIPOV, Shunkor S. KHUSHMATOV, Adilbay T. ESIMBETOV, Pulat B. USMANOV, Sherzod N. JURAKULOV	36
SECTION <i>Nutrition</i>	37
The impact of addition of different tea powders on the biological activity of white chocolate Lucia GODOČIKOVÁ, Eva IVANIŠOVÁ, Miroslava KAČÁNIOVÁ	38
Effect of ketogene diet on changes of anthropometric parameters of selected group of women Lucia MEČIAROVÁ	39
Determination of silymarin complex using high-performance liquid chromatography and its application in cereal products Veronika VALKOVÁ, Hana ĎÚRANOVÁ, Jana BILČÍKOVÁ, Miroslav HABÁN	40
Starch and glycemic carbohydrate content in non-traditional cereals Denisa VOZÁROVÁ	41
SECTION <i>Multi, functional agriculture, environment, landscape architecture and rural development</i>	42
Assessment methodology of plant species composition suitability for diverse green space categories in the Slovak countryside Denis BECHERA	43
Comparison of two different potential bioavailable forms of mercury in Technosol developed on the heap after mercury mining activity Nikola BENKOVÁ, Pavol MIDULA, Oliver WICHE	44
Re-designing public space - analysis, data and quick solutions Miroslav ČIBIK, Roberta ŠTEPÁNKOVÁ	45
Preferences of schoolchildren in the everyday use of schoolgrounds Eszter JÁKLI	46
Soil organic matter vs. soil structure after biochar application Martin JURIGA	47
Natural conditions and their influence on dendrometric changes of <i>Juglans regia</i> L. Martina KOVÁČOVÁ, Viliam BÁREK, Vladimír KIŠŠ	48
Is there natural regulation of allergic common ragweed (<i>Ambrosia artemisiifolia</i> L.) pollen in the field conditions? Patrícia MÁČAJOVÁ, Peter TÓTH	49

Determination of longitudinal dispersion at the Okna river Martin MANINA, Peter HALAJ	50
Soil volumetric water content measurement by gravimetric and TDR methods at field experiment Dolná Malanta Lucia TOKOVÁ, Dušan IGAZ, Elena AYDIN	51
Methodological issues of landscape-transforming analysis in adaptive inland water management Dalma VARGA	52
Contamination of soil by mobile lead fraction Jozef VARGA	53
SECTION <i>Plant Production</i>	54
Synthesis and cytotoxic activity of galactomannan-gemcitabine conjugates Dilnoza AMONOVA, Bahtiyor MUHITDINOV, Husniddin KIRGIZBAYEV	55
Phenotyping of wheat varieties with different drought tolerance Mária BARBORIČOVÁ, Erik CHOVANČEK, Kristína GAŠPAROVIČ, Lenka BOTYANSZKÁ	56
Utilisation of repellents for the control of selected plant pests and evaluation of their effect to non-target insects Miroslava FUSKOVÁ, Branislav PASTOREK	57
The analysis of antioxidant activity of ramson (<i>Allium ursinum</i> L.) - inflorescens and bulbs Michaela HRÚZOVÁ	58
Exogenous effect of abscisic acid in the system of antioxidant protection and biochemical characteristics of cotton-plant under saline stress Karomat M. KULDOSHOVA	59
The role of phytohormones in the regulation of cotton resistance to the action of chloride salinity Karomat M. KULDOSHOVA	60
Effect of harrowing on nitrogen content in yield of mixture of spring triticale and faba bean Agnieszka LAGOCKA	61
Influence of different intensity of mowing on grassland botanical composition in warm and dry conditions Miriama LUKÁCS, Ľuboš VOZÁR, Peter KOVÁR, Peter HRIC, Petra VEREŠOVÁ	62
Impact on yield forming parameters, seed yield and oil content in seeds of sunflower by using plant growth stimulators Ján MAREK	63
Impact of different caespitotechnical level for development of the turfroot system Martin MEDZANSKÝ, Ľuboš VOZÁR	64
The efficacy of fungicides against Fusarium head (and grain) blight under natural infection Ľudovít MIŠLAN	65
The effect of the natural preparation DAG-1 on the catalase activity of cotton Munavvar NURMATOVA, Utkir YULDASHOV, Dildora BABAEVA, Nigora KHASHIMOVA, Zabardast BURIEV	66
Sowing time effect on formation of faba bean yield in 2018 Ieva PLÚDUMA-PAUNI A	67
Change of soil properties of grassland by application of digestate Alena ROGOŽNÍKOVÁ, Jozef ČUNDRELÍK, Ľuboš VOZÁR	68
Activity of peroxidase in antioxidant protection of the cotton under salt stress Utkir YULDASHOV, Munavvar NURMATOVA, Dildora BABAEVA, Zabardast BURIEV, Nigora KHASHIMOVA	69
SECTION <i>Technology, quality and safety of raw materials and foodstuffs of animal origin</i>	70
Slaughter performance and meat quality of Holstein veal fed with total mixed ration (TMR) and alfalfa hay Katarína HOZÁKOVÁ, Klára VAVRIŠIŇOVÁ	71

Preparation and characterization of low molecular weight chitosans Husniddin KIRGIZBAYEV, Bahtiyor MUHITDINOV, Dilnoza AMONOVA.....	72
Comparative study of lipid-binding properties of chitosan, alginate, and pectin Munajat J. ORIPOVA, Yuliya I. OSHCHEPKOVA	73
SECTION Technology, quality and safety of raw materials and foodstuffs of plant origin.....	74
Extraction of seed oils with rich sources of fatty acids Jahongir HASANOV, Sanjar NAVRO'ZOV	75
Mathematical modeling and optimization of the parameters of the process of extraction of water soluble polysaccharides from fruits <i>Prunus domestica</i> L. Nuriya BEKNAZAROVA, Sardor MAKHMUDOV, Shukhrat TURABOEV, Farkhod ATAMURATOV, Nadjie ABREKOVA	76
The study of the antimicrobial activity of pectic substances derived from the fruit of <i>Prunus domestica</i> L. Sardor MAKHMUDOV, Rokhila DTIJRAEVA, Shukhrat TURABOEV, Farkhod ATAMURATOV, Nadjie ABREKOVA	77
Utilizing the technology of targeted must oxygenation in the process of producing still white wines in order to reduce the need for the application of sulfur dioxide and to enhance the varietal character of the wine Jakub MANKOVECKÝ	78
Author Index.....	79
