

ROMAN GÁLIK, ŠTEFAN BOĎO, JIŘÍ FRYČ

**TECHNOLOGICAL SYSTEMS FOR LAYER HOUSING AND THEIR
INFLUENCE ON PRODUCTS QUALITY**

NITRA 2014

Name: Technological systems for layer housing and their influence on products quality

Authors: doc. Ing. Roman Gálik, PhD. (AH 1,55)
Ing. Štefan Bod'o, PhD. (AH 1,20)
doc. Ing. Jiří Fryč, CSc. (AH 0,79)

Lectors: doc. Ing. Martina Lichovníková, Ph.D.
doc. Ing. Petr Kunc, Ph.D.

An partial output of authors research was to submit and register an utility model in the Industrial Property Office of the Slovak Republic No.: PUV 86-2013, under the name „Portable measuring device for force measuring required to destroy the eggshell“.

Publishing of scientific monography was sponsored by:

Farma Fauna, spol. s r. o.
GEA Farm Technologies Slovakia, spol. s r. o.
MBD Nitra, spol. s r. o.
VPP, spol. s r. o.

Approved by the rector of the Slovak university of agriculture in Nitra on March 12th 2014 as a scientific monography.

INDEX

1	CURRENT STATE OF PROBLEMACY AT HOME AND ABROAD	11
1.1	EU LEGISLATION FOR CHICKEN BREED AND ITS IMPLEMENTATION INTO SLOVAK REPUBLIC LEGISLATION.....	11
1.1.1	<i>SR legislation</i>	11
1.1.2	<i>EU legislation</i>	11
1.1.3	<i>The current situation in the rearing of laying hens (after January the 1th of 2012)</i>	12
1.2	METHODS OF LAYING HENS	13
1.2.1	<i>History</i>	13
1.2.2	<i>Cage systems</i>	14
1.2.3	<i>Alternative systems</i>	18
1.3	SELECTED QUALITY PRODUCTION INDICATORS OF BREEDING HENS	21
1.3.1	<i>Physiology - calcium loss and fractures</i>	21
1.3.2	<i>Ethology</i>	22
1.3.3	<i>Effect of rearing laying hens on some performance indicators and technological egg quality</i>	23
1.3.4	<i>Egg quality assessment</i>	24
1.4	FOOD SECURITY	29
2	AIM OF THESIS	31
3	METHODOLOGY AND METHODS OF EXAMINATION	31
3.1	ANALYSIS OF THE EGG QUALITY PRODUCED IN SELECTED FARM (VARIANT A)	31
3.1.1	<i>Egg and shell weight</i>	32
3.1.2	<i>Shell deflection</i>	32
3.1.3	<i>The force needed for shell destruction</i>	33
3.1.4	<i>Shell thickness</i>	33
3.1.5	<i>Egg shape index (ESI)</i>	34
3.2	ANALYSIS OF THE EGG QUALITY PRODUCED IN LABORATORY (VARIANT B).....	34
3.3	EVALUATION OF MEASURED VALUES	35
4	RESULTS AND THEIR ANALYZE	36
5	DISCUSSION	58
6	CONCLUSION.....	60
