

Table of Contents

Preface and acknowledgements	5
Introduction.....	6
Sample collection.....	7
Sample preparation	8
Preparing the analytical sample.....	10
Drying stage	11
The temperature, the tools used and the storage of animal tissues.....	13
The temperature, the tools used and the storage of human tissues.....	15
Drying discrepancies as consequences for the protocol	18
Mineralization.....	19
Preparation of the solution	20
Different ways of preparing the material.....	20
Examples of various protocols	20
No drying, dry mineralization (450°C), AAS.....	21
No drying, wet mineralization (140°C, HNO ₃), AAS	24
No drying, microwave mineralization (HNO ₃ , H ₂ O ₂), AAS	28
No drying, microwave mineralization (HNO ₃ , HCl), AAS.....	30
No drying, microwave mineralization (120°C, HNO ₃ , HCl), AAS	33
Drying in 105°C, dry mineralization (450°C), AAS.....	35
Drying in 105°C, wet mineralization (90°C, HNO ₃), AAS.....	38
Drying in 60°C, wet mineralization (110°C, HNO ₃ , HClO ₄), AAS	40
Drying in 60°C, wet mineralization (110°C, HNO ₃ , HClO ₄), AAS	42
Drying in 60°C, wet mineralization (110°C, HNO ₃ , HClO ₄), AAS.....	44
Drying in 60°C, wet mineralization (140°C, HNO ₃), AAS.....	49
Water analysis (acidification with HNO ₃), AAS.....	51
Summary and conclusions.....	56
Wnioski	56
Súhrn.....	57
References.....	58
