

CONTENTS

PREFACE BY PROFESSOR JIŘI BLAHOVEC

INTRODUCTION

SCIENTIFIC COMMITTEE

LECTURES

<i>Babić Mirko, Babić Ljiljana, Radojčin Milivoj, Stamenković Zoran, Pavkov Ivan:</i> Development of an original solar air heater for fruit drying.....	13
<i>Farkas Istvan:</i> Overview of solar energy use worldwide.....	15
<i>Hlaváčová Zuzana, Staroňová Lenka, Kardžilova Krassimira:</i> Electric properties of biological materials measuring techniques.....	18
<i>Horabik Józef:</i> Modeling of properties and processes in biomaterials by discrete element method.....	21
<i>Libra Martin:</i> Fundamental Problems of the Power Engineering in the 21 st Century.....	23
<i>Seres István, Vig Piroska:</i> Biophysical experiments.....	26
<i>Ślawiński Cezary:</i> Soil water hysteresis – the measurement and modelling.....	28
<i>Vozárová Vlasta, Valach Michal, Hřeš Lubomír, Petrović Ana, Csillag Ján:</i> Vegetable oils thermal properties and energy values.....	29

ORAL CONTRIBUTIONS OF YOUNG SCIENTISTS

<i>Albert Małgorzata, Wilczek Andrzej, Janik Grzegorz, Skierucha Wojciech, Błaś Marek, Sobik Mieczysław:</i> Application of TDR technique for determination of the effect of soil moisture on water infiltration from the atmosphere during effective non rainfall periods.....	32
<i>Ambrożewicz-Nita Anna, Józefaciuk Grzegorz, Szerement Justyna, Piasek Justyna, Kędziora Karolina:</i> The effect of addition of zeolite on changes in surface charge of selected soils.....	34
<i>Bartha Sándor, Ursu Viorel, Antal Noémi:</i> Solar and bio hydrogen production used for fuel cells energy conversion system.....	36
<i>Bilińska Nina, Frąc Magdalena:</i> Phosphorus and sulphur utilization profiles of two heat-resistant strains of <i>Neosartorya fischeri</i> using phenotype microarray (PM plates).....	38
<i>Bulak Piotr, Brzezińska Małgorzata:</i> Agents for chelate-assisted phytoextraction	40
<i>Chyba Jan, Kroulík Milan</i>	42
<i>Chylińska Monika, Szymańska-Chargot Monika, Zdunek Artur:</i> Classification of dietary fiber fractions from different sources based on FT IR and hierarchical cluster analysis.....	45
<i>Csáki Štefan, Štubňa Igor, Trnovcová Viera, Vozár Libor:</i> Geometrical factor and its uncertainty in a formula for electrical conductivity.....	47

<i>Cybulak Marta</i> : Determination of calcium, magnesium and potassium in fawn soil with biochar by atomic absorption spectroscopy.....	50
<i>Daniel Anna, Janik Grzegorz, Albert Małgorzata, Wolski Karol, Szyszkowski Paweł</i> : Application of TDR technique for estimating evapotranspiration.....	51
<i>Dlabał Lukáš, Polák Martin</i> : Influence of flow rate on the efficiency of sets with bladeless turbine.....	52
<i>Gackiewicz Bartłomiej, Lamorski Krzysztof, Sławiński Cezary</i> : Modeling of soil water transport - numerical implementation of the Richards equation.....	55
<i>Hireš Lubomír, Csillag Ján, Regrut Tomáš, Petrović Ana, Valach Michal</i> : The measurement of dynamic viscosity of bio lubricants with rheometer Anton Paar MCR 102.....	56
<i>Houška David, Křížová Marie</i> : Density analysis of selected components of sorted municipal waste.....	59
<i>Jaromin-Gleń Katarzyna</i> : Modeling of sewage purification in SBR reactors using a dedicated simulator.....	62
<i>Kabutey Abraham, Herak David, Sigalingging Riswanti</i> : Theoretical and experimental analysis of linear and non-linear compression of oilseed crops....	64
<i>Kędziora Karolina, Piasek Justyna, Szerement Justyna, Ambrożewicz-Nita Anna, Cieśla Jolanta, Józefaciuk Grzegorz</i> : Modification of zeolite surface charge for wastewater treatment.....	66
<i>Kocsány Ivett, Seres Istvan</i> : Influence of solar radiation on heat transfer process in solar collectors.....	68
<i>Koczańska Magdalena, Cieśla Jolanta, Bieganowski Andrzej</i> : The effect of preparation conditions on the sedimentation of clay suspension.....	70
<i>Kondracka Katarzyna, Nosalewicz Artur, Lipiec Jerzy</i> : Plant response to drought stress.....	71
<i>Kot Anna, Frąc Magdalena, Lipiec Jerzy</i> : Microbiological and biochemical properties of sludge from fruit wastewater treatment plant and its impact on soil environment.....	73
<i>Kotowicz Natalia, Frąc Magdalena, Lipiec Jerzy</i> : Application of biolog FF microplate™ for metabolic profiling of fungi from the genus fusarium.....	74
<i>Kozioł Arkadiusz, Cybulska Justyna, Kruk Beata, Sysa Dorota, Lekka Małgorzata, Zdunek Artur</i> : The study of Young's modulus of fruits during development using atomic force microscopy.....	76
<i>Kříž Milan</i> : Application of industry sensors for measuring of the soil roughness before tillage.....	77
<i>Kuna Jan, Bieganowski Andrzej</i> : Household wastes as a substrate for biogas production.....	80
<i>Kwietniewska Ewa, Tys Jerzy</i> : Anaerobic digestion of microalgal biomass.....	81

<i>Lalak Justyna, Tys Jerzy, Kasprzycka Agnieszka</i> : Ultrasonic pre-treatment of lignocellulosic biomass to improve anaerobic digestion.....	82
<i>Lev Jakub</i> : Capacitive throughput sensor and its sensitivity to the change of material properties.....	84
<i>Łukowska Małgorzata, Józefaciuk Grzegorz</i> : Determination of surface free energy of plant leaves.....	86
<i>Mierczyńska Joanna, Cybulska Justyna, Zdunek Artur</i> : High dietary fiber powder enriched with metal ions and ascorbic acid as a modifier of rheological properties of food.....	88
<i>Novák Ján</i> : Measurement of colza seeds conductivity.....	89
<i>Oleszek Marta, Kuna Jan, Tys Jerzy</i> : The possibilities of biogas production the Lubelskie province.....	91
<i>Panek Jacek, Frąc Magdalena</i> : Application of PCR method for detection of heat-resistant fungi belong to the <i>Talaromyces flavus</i> species.....	93
<i>Pastuszka Tomasz, Sławiński Cezary</i> : The influence of the organical sludges on hydrophysical soil properties.....	94
<i>Pastuszka-Woźniak Joanna, Baranowski Piotr</i> : Application of hyperspectral imaging to estimation of protein and water content of selected grains.....	95
<i>Paszkowski Bartosz</i> : Thermal characteristic of Acacia honey's dielectric permittivity.....	96
<i>Piasecka Agata, Krzemińska Izabela, Tys Jerzy, Wawrzykowski Jacek</i> : Microalgal cell disruption techniques.....	98
<i>Piasek Justyna</i> : Ion exchange and adsorption properties of modified zeolites.....	99
<i>Procházková Petra</i> : Building integrated wind turbines.....	100
<i>Radojčin Milivoj, Babić Mirko, Babić Ljiljana, Pavkov Ivan</i> : Effect of the osmotic pretreatment factors on physical properties of quince (<i>Cydonia Oblonga</i>) during combined drying.....	103
<i>Regrut Tomáš, Petrović Ana, Hireš Lubomir, Csillag Ján, Valach Michal</i> : Measurement of density of biooils using densitometer Anton Paar M 5000.....	105
<i>Rusirawan Dani, Farkas István</i> : Single and double diode models of photovoltaic cells: evaluation of the methods and accuracy.....	108
<i>Siedliska Anna</i> : Hyperspectral Imaging as a tool for determining quality and phytochemicals concentration INsmall fruits.....	111
<i>Skic Kamil, Sokółowska Zofia</i> : The influence of the dairy sludge addition on the specific surface area of loess soil - the analysis of water vapour adsorption isotherms.....	112
<i>Solecki Grzegorz, Wilczek Andrzej, Szyplowska Agnieszka, Nakonieczna Anna, Paszkowski Bartosz, Skierucha Wojciech</i> : Application of the fast Fourier transform method to the TDR signal analysis based on data from a vector network analyzer..	114

Stelmach Wioleta: The analysis of priming effect in soil contaminated by selected petroleum substances..... 115

Szerement Justyna, Szatanik-Kloc Alicja: The effect of cadmium ions to change the surface charge of celery (*Apium L.*) and parsnip (*Pastinaca sativa L.*) roots..... 117

Szilágyi Attila, Seres István: Solar cooling with absorption cooler in hungary..... 118

Víg Piroska: Examination of frozen water samples with fractal analysis..... 120

Walkiewicz Anna, Brzezińska Małgorzata: Effect of heavy metals on soil methanotrophic activity..... 123

Wróbel Joanna, Nosalewicz Artur: Physiological responses of cucumber plants with partial rootzone drying..... 125
